Notice To Mariners No. 193

**SUBJECT : AL KASER BAY TERMINAL NO.2 –
AMENDMENTS TO THE NOTICE TO MARINERS 148, REV.2**

1. **The following new section G is inserted after existing section V - F:**

G. AL KASER BAY TERMINAL NO.2

Al Kaser Bay Terminal is located south of Fujairah Harbour. The terminal is designed to cater vessels for the carriage of aggregate (Rock) cargo. Owing to the exposed terminal the vessel is held firmly against the fenders at all times by means of adequate mooring lines. It is unnecessary and dangerous to slack away lines, even if they appear to be taut, if the ship is not hard against the fenders. The mooring lines should be tended at all times, as necessary, to preclude undue movement of the vessel.

The minimum number of mooring lines to be used for securing vessels are:

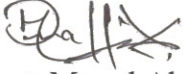

- One (1) Spring Line – fore
- One (1) Spring Line – aft.
- Two (2) Breast Line – fore
- Two (2) Breast Line – aft
- Two (2) Head Lines
- Two (2) Stern Lines

1	Geographical Position	Lat : 25° 06.81' N Long : 056° 22.04' E
2	Total Length of quay	160 meters
3	Maximum LOA	120 meters
4	Height of quay above sea level	4.57 meter
5	Water depth at approaches	11 meters
6	Water depth alongside	10 meters
7	Height of Lowest Low Water	0.10 meters
8	Height of Highest Astronomical Tide	2.80 meters

contd... 2

9	Extreme Highest water	3.14 meters
10	Maximum arrival draft	8.5 meters day light hours
11	Maximum sailing draft	9.0 meters round the clock

Best Regards,

Capt. Mayed Alameiry,
DY.HARBOUR MASTER.
